s705 IP Desk Phone

s705 IP Desk Phone

The Sangoma s705 telephone gives you great features with six Session Initiation Protocol (SIP) accounts and a competitive price point.

The Sangoma s705 IP Phone is designed exclusively for FreePBX

The s705 is so smart you can quickly and easily use it right out of the box. It features industry standard Power over Ethernet, so no power cable or outlets required. They have full duplex speaker-phones, dual Ethernet Ports, multi-way conference calling, high definition voice quality, and they're Virtual Private Network (VPN) capable. It also features built-in Bluetooth and WiFi.

Full Integration with FreePBX

FreePBX phone apps are available right on the phone, straight out of the box with no requirement for additional licenses. Users can control complicated features directly from their phones. There's no need to remember feature codes. User applications include: Call Parking, Follow Me, Do Not Disturb, Conference Rooms, Call Forwarding, Time Conditions, Presence, Queues, Transfer to Voice Mail, Visual Mail, and Log in/out.

FCC Statement:

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device is compliant with Power over Ethernet(PoE) 802.3af Class 3 and can therefore be powered from a PoE compliant switch or hub. For customers requiring AC power, AC to DC adapters can be purchased separately from Sangoma. Alternatively, if you want to source your own power supply, the specifications must meet the 5V / 1.2A input rating. If the wrong power supply is used and the unit is damaged, the warranty will be void.
